Preparing For
THE CLOUD
Checklist

CLOUD CHECKLIST

INFRASTRUCTURE

Do you have an aging infrastructure which needs to be revamped, but you are hesitant, because the cost of investing in new infrastructure is becoming an Impediment
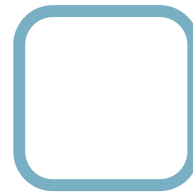

PERFORMANCE

Are you running into performance issues regularly during peak times and this is causing your business to suffer to the point that you are losing business

RETURN ON INVESTMENT

Are you looking for a faster ROI time frame, but you are being hampered by bureaucratic and decision making processes cost-wise in a traditional data center model

INSIGHTS

Would you like to gather more insights into your product or service by capturing more data points but is worried that you will have issues in storage and processing power

DR STRATEGY

Are you worried that you lack a proper DR strategy and would like to implement one, but the cost of implementing it is holding you back

INNOVATION

Do you have novel product or service Idea that you would like to implement but would like to test out the feasibility by doing a cost effective POC in a short amount of time

THE CLOUD JOURNEY

Before you embark on your journey in the Cloud, it is vital that as an organization you know a few things like; Am I ready to move to the cloud? Is cloud the right platform for me? What kind of benefits should the organization expect to see by moving to the cloud?

At CloudQ, we recognize that these are not easy questions to answer, and in most cases, organizations need help to arrive at the right answer. This is where we come in. With our experienced professionals who have worked on traditional legacy systems, as well as state of the art cloud platforms, CloudQ will partner with you to provide you with answers to all of your Cloud questions.
